

Revealing the inner beauty of the Torah in a way that touches and inspires the Jewish soul

LIVING INSPIRED

B.S.D.

By: Rabbi Chaim Zwick

The choice before you is not what kind of life you will have right now, but what kind of life you will have over the next 30, 40 or 50 years. Will you connect to your life mission? Will you fulfill your destiny? Will you leave a legacy over for your children and grandchildren? Will your life count? Will the world be a better place because you were here?

Imagine...if you will for a moment, living the life of your dreams!

Imagine...a life of purpose and meaning where things matter and life has significance.

Imagine...a life of clarity and vision, knowing exactly what you want, in each area of your life.

Imagine...waking up every day feeling a sense of passion & inspiration, knowing you are doing what you were born to do.

Imagine...always feeling relaxed, confident & focused - living life with an attitude of positive expectation.

Imagine...having personal power, taking charge of your life, having peace of mind, personal fulfillment, freedom, happiness, contentment, financial security & relief from anxiety and fear.

Every minute of the day, the individual choices you make have dramatic consequences for the rest of your life, and may even shape the lives of generations to come. Now is the time to step up and to have the courage to conquer your future. Greatness doesn't come without a price. It takes extraordinary vision and bold leadership skills. It takes commitment, sacrifice, hard work, desire and persistence. It takes leaders with vision to help people with dreams. Like tossing a stone in a pool of water, the ripples of advancement in personal development have far reaching results.
